

PCP-M

Pneumatic driving staking-tool

Datasheet, 31.05.2023, V1.1

 Engineered and made in Switzerland

The machine PCP-M is an electric clamping staking-tool with electronic adjustment closing force driven watch-cases.

Electronic adjustment of pressure force ensures maximum clamping pressure to avoid damage to the watch back cover.

Machine functions

- For driven pressure watch-cases
- For fitting crystals
- Support base for interchangeable stake
- Adjustable driving force
- Set driving force indicated in daN
- Option :
 - Mechanical stop in Z

For accessories :
see accessories sheet

Technical specifications

Supply voltage :	24 VDC / 2,1 A
Power :	8 W
Minimum inlet pressure :	5 bar
Driving force :	400 daN at 6 bar
Weight :	20,8 kg
Dimensions (l/d/h) :	300 x 240 x 410 mm
